## A SECURE, SELF-SERVICE SOLUTION THAT STREAMLINES THE ENTIRE PROCESS, ANYWHERE, AT ANY TIME.

Managing enrolment and onboarding can be complex, especially when large groups of people need to be ready in a short period of time. CardExchange® Admission makes it simple by giving users a clear, guided process they can complete themselves, anytime, anywhere.

Whether you're issuing IDs for students, employees, visitors, or members, Admission provides an intuitive online experience. Users can securely upload their photo, personal information, and identity documents through any modern browser, while organizations gain accuracy, efficiency, and control.

### Why choose Admission?

Admission is designed to help organizations run enrolment and onboarding smoothly, at scale, while maintaining a professional and secure experience. It helps you:

- Streamline repetitive admin tasks with automation
- Accelerate large-scale enrolment and onboarding periods
- Improve data accuracy with direct user input
- Deliver a polished, branded experience to every user
- Integrate seamlessly with CardExchange® Controller
- Strengthen security with SSO integration and privacy compliance

# HOW IT WORKS

AD

Getting started is easy with Admissions' customizable step-by-step wizard:

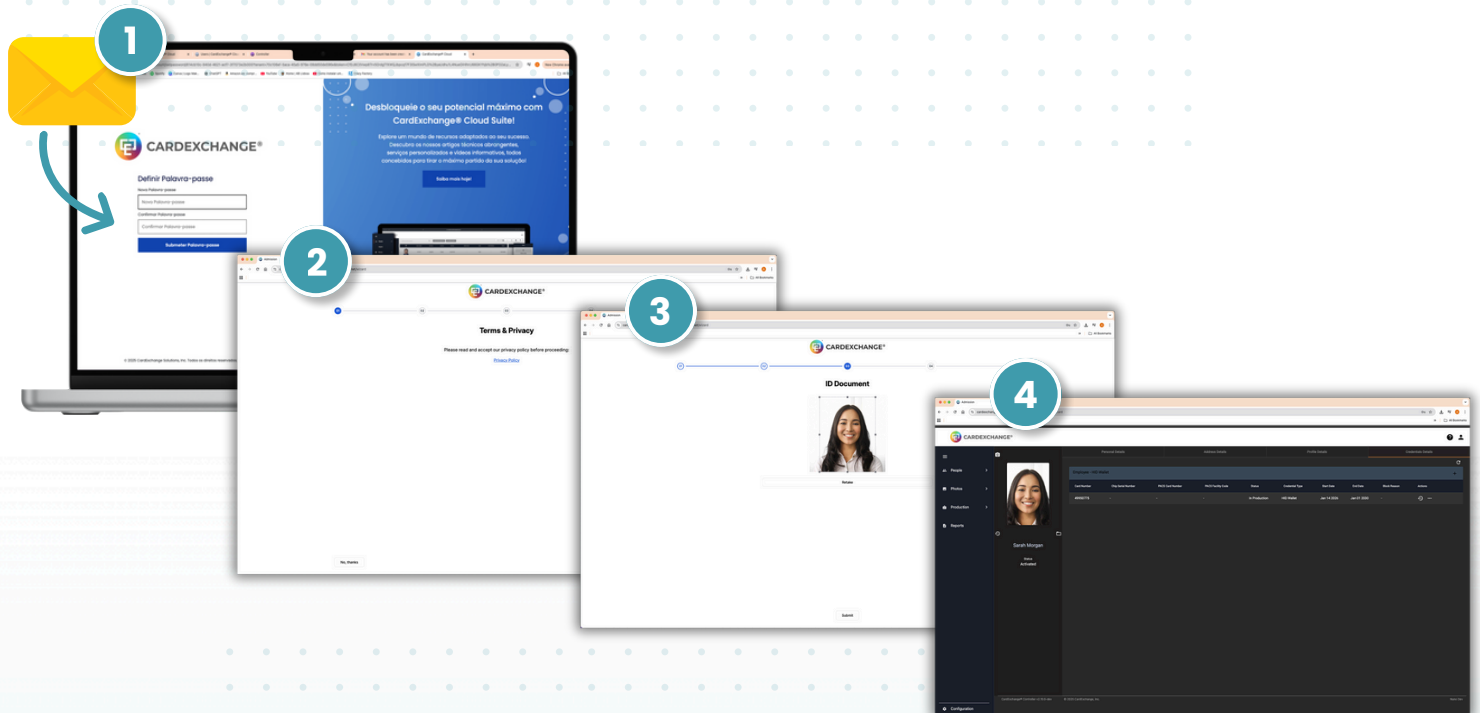

**1 - Send the Invitation** - Through CardExchange® Cloud, users receive a personalized link to begin enrolment/onboarding.

**2 - User Completes the Process** - They upload a photo, ID document, and required details, while accepting your terms and conditions.

**3 - Smart Data & Photo Management** - Built-in photo tools handle cropping, face detection, and background removal, while rejecting invalid submissions (sunglasses, multiple faces, pets, etc.).

**4 - Automatic Transfer to Controller** - All verified data and photos flow directly into CardExchange® Controller, ready for review and ID issuance.

Admission reduces friction with a guided flow that adapts to your policies, making the process smooth for users and effortless for administrators.

# READY TO SIMPLIFY YOUR ONBOARDING PROCESS?
