CARDEXCHANGE®
PRESS

Go beyond traditional ID card design software by using our secure, cloud linked workspace for individuals or teams to create, manage, and print ID badges.
CardExchange® Press ID card designer tool allows your organization to centralize card issuance and maintain continuity within your secure IDs.
CardExchange® Press ensures a high level of data security and convenient access from any device with proven security features from one of the best platforms on the market.
CardExchange® Press is based on our highly successful CardExchange® Producer Enterprise edition product and the Press therefore supports all features from the highest edition including inline encoding for MIFARE® Classic and DESFire EV1, 2.

ADVANCED CARD DESIGNER

Easily create the perfect ID card. Choose fonts and add images, graphics, barcodes, magnetic strip, and much more. Powerful graphic tools let you resize and rotate objects on your card, apply graphic enhancements, remove backgrounds from images, create variable images, all with a simple point and click. Each template can have multiple layouts and automatically switch layouts when printing based on a field value. You can even control the text: how it looks, merge fields, and even have an image displayed as a background in your text field. User friendly with a Microsoft® look and feel provides an intuitive workflow.

CARD ENCODING

CardExchange® Press offers inline encoding the most popular encoding technologies such as MIFARE®, DESfire (EV1 & EV2), MIFARE® SAM, 1K, 4K, Classic, etc. It offers PROX read only. Inline encoding is available in our to enhance the security of your cards. Basic magnetic strip encoding is available in all editions. The Press has an easy-to-use wizard to help you setup everything you need to encode your cards.
