MEET IDENT

ID

IDENT reimagines the ID card by bringing it to the device you never leave behind. It's more than just a replacement for plastic, IDENT is your secure **virtual and digital ID card**, stored safely in the IDENT app and ready whenever you need it.

Organizations can also enable wallet compatibility through HID integrations, giving users flexibility in how they carry their credentials. With real-time issuance and management, IDENT makes access simpler for everyone, and safer for every organization.

Why IDENT? – Key Benefits

Wallet Integration

Supported for HID Wallet (Apple and Google).

User-Friendly

Ensure you have the latest information on the system

Hybrid Flexibility

Combine digital and physical credentials, or go fully mobile.

Enhanced Security

Enterprise-grade encryption and instant remote revocation.

Eco-Friendly

Reduce plastic waste by moving beyond traditional cards.

Simplified Management

Update, revoke, or reissue credentials instantly.

HOW IT WORKS

1 - Download the IDENT App

2 - Sign In & Verify

3 - Virtual and Digital ID is issued

4 - Ready to Go

SECURITY YOU CAN TRUST

IDENT is built on cutting-edge security, combining encryption, biometrics, and remote credential management. If a device is lost or stolen, credentials can be revoked instantly, and new ones issued without delay.

IDENT keeps your organization compliant with the latest data privacy and security standards worldwide.

FEATURES LIST

ID

Highlights

Instant Virtual and Digital Issuance – Credentials are issued directly into the IDENT app in seconds. With HID wallet integration, they can also be extended into Apple or Google Wallet.

Access Control Integration – IDENT connects with leading systems like HID, so organizations can modernize without replacing their infrastructure.

Hybrid Credentialing – Prefer to keep physical cards as a backup? No problem. IDENT works alongside physical cards, giving you the flexibility to transition at your own pace.

Real-Time Management – From anywhere in the world, admins can update, revoke, or reissue credentials instantly — keeping full control over security and access.
